

## Autumn

Autumn. My favourite season. Crisp, bright mornings, blue skies and the ever changing colours of the leaves on the trees.

The best time to go for a walk in your local woods. Collecting conkers, crunching through the leaves on the ground and smelling the cool, damp air.

And while you are out there, why not help the Forestry commission in their quest to chart the changing colours of the trees across the country?

Go to <http://www.forestry.gov.uk/autumn> to grade the colours of the trees that you see.....
